## CONTAGIOUS BLOOD POISON

Contagious Blood Poison more thoroughly poisons the blood than any other disease. Every part of the body is affected when the virus becomes entrenched in the circulation; red eruptions break out on the skin, the mouth and throat ulcerate, glands in the neck and groin swell, the hair falls out, copper-colored spots appear on the body, etc.

I was afflicted with blood poison, and the best doctors did me no good. Though I took their treatment faithfully, in fact I seemed to get worse all the while. I took almost every so-called blood remedy, but they did not seem to reach the disease, and had no effect whatever. I was disheartened, for it seemed that I would never be cured. At the advice of a friend I then took S. S. S. and began to improve. I continued the medicine, and it cured me completely. R. NEWMAN.  
Hamlet, N. C.

So highly contagious is this disease that many a life has been ruined by a friendly hand shake or from using the toilet articles of one affected with the poison. To cure this hideous and hateful disease a constitutional remedy is required. S. S. S. goes down to the very particle of the virus from the blood and cures the disease permanently. S. S. S. is purely vegetable and drives out the trouble, root and branch, and no signs of it are ever seen again. Those who have been cured by S. S. S. can feel assured that none of the poison is left in the blood to transmit to innocent offspring. The entire body is built up and the blood made pure, rich and healthy by this great remedy. Book with instructions for home treatment and any medical advice desired will be given free of charge.

## SODA FOUNTAINS TO BE OVERHAULED BY STATE FOOD COMMISSION.

Soda fountains of the insanitary kind are likely to be overhauled by the State Food Commission. The legislature will be asked to clothe the Commissioner with authority to condemn all fountains not possessing sanitary syrup receptacles and other parts hidden from the public gaze.

It is the decided opinion of many druggists and other soda fountain operators that the ice chamber should be entirely separated from syrups, which should be stored "IN GLASS BOTTLES IN PLAIN VIEW OF CUSTOMERS."
